

March Meeting Announcement

Topic: ICF – Insulating Concrete Forms

DC Magimelli, II will present an introduction to ICF – Insulating Concrete Forms. This presentation will provide a brief history behind the products, what types of forms are available, how they are manufactured, how they are used to create a high performance building envelope, the building process, design considerations for building efficiencies, and how they contribute to Green Building Construction and LEED Credits, etc. Mr. Magaimelli will also discuss the costs for these products and installation for budgeting along with who are the certified installing subcontractors for these forms.

Speaker: Mr. D.C. Mangimelli, II

Mr. Magimelli has 35+ years of successful experience in the construction industry. DC has historic professional involvement with; Pre-Construction, Design & Specification support, Estimating, Submittal Support, Shop Drawings, Material Supply & Procurement, Project Management & Training Support. D.C. has a passion for sustainable design and construction methods and products for better building science. (IFC) Insulating Concrete Forms has been his center or core of supporting cost effective, safe, secure, sustainable, energy efficient new construction projects in the residential, institutional, municipal, Governmental, DoD, DoDEA, Education and Commercial Construction markets.
