## **June Meeting Announcement**

### **Topic: Building and Testing Floors to Achieve FF/FL requirements**

Building floors to meet FF/FL design requirements can be difficult if the concrete contractor or testing agency use the wrong methods/procedures. In this meeting we will bring together a specialty concrete contractor and engineering testing specialist to discuss the proper construction equipment and techniques to build and test floors with more stringent FF/FL requirements. We will delve into what FF/FL really means, some of the pitfalls that can be expected during construction as well as the proper way to test FF/FL.

**Speakers:** Steve Lloyd of Lloyd Concrete Services and Devin Bilyeu of Terracon Consultants. See page 2 for bio.

**Date:** June 20, 2019

**Location:** The Haskell Building -  
111 Riverside Avenue, Jacksonville, Florida 32202

**Time:** Social 5:30 pm, Dinner 6:00 pm, Presentation 6:30 pm

**Cost:** Members-\$30.00/Non-Members-\$35.00 (No shows will be billed)  
Students can attend for free with dinner for only \$10.00 (Please indicate if you plan to have dinner when you make your reservation)!

**Please RSVP by noon on June 18, 2019 so we can reserve your spot.**

**Contact:** Oksana Spears at 904-860-1875 or E-mail Oksana at

**Steve Lloyd** is owner and founder of Lloyd Concrete Services, and Maxxcrete, Inc concrete floors in Forest, VA. Lloyd Concrete is the oldest concrete pump company in Virginia with a large fleet of concrete pumps and telebelts. Lloyd Concrete has been pouring with steel fibers since 1997 and had the first successful expanded joint floor in 2009. Since then Steve has one of the most successful design, place and finish expanded joint floors in the country. In 2018, Steve Lloyd was inducted as an ACI Fellow with the American Concrete Institute and was voted “Most Influential Person in Concrete” by Concrete Construction magazine in 2017. In 2018 Steve was honored by the Virginia General Assembly, House of Delegates Resolution number five hundred twenty for his admiration and accomplishments in the concrete industry. Along with all these accomplishments, he has numerous Golden Trowel awards and a world record accomplishment in concrete floors.

Steve is a voting member of American Concrete Institute Certification Programs Committee, American Concrete Institute C640 Craftsman Certification, American Concrete Institute 306 Cold Weather Concrete, American Concrete Institute 302 Concrete Floor and Slab Construction, and American Concrete Institute 360 Design of Slabs on Ground. Member American Concrete Institute 301K Industrial Floors, and American Concrete Institute 310 Polishing Committee

**Devin Bilyeu** is a Project Manager for Terracon Consultants overseeing construction materials testing and inspection programs for work in their Jacksonville Florida operations. Prior to moving to Florida, Devin provided a wide range of engineering technician services ranging from basic concrete testing, post tensioning inspections, structural steel inspections, and Floor Flatness testing services and is FACE Dipstick certified. He has 5 years of engineering testing experience and attended Bacone College and the University of Central Oklahoma and is on the board of the First Coast Chapter of ACI here in Jacksonville.
