

ACI Award Nomination Request Form for Significant Concrete Structures in the Northeast Florida Region

A “Significant Concrete Structure” is a concrete structure in which concrete was used in a unique or innovative way and/or concrete was used because of its advantages over other materials with consideration to aesthetics, durability, cost and scheduling flexibility.

On November 19, 2025, the Florida First Coast Chapter of the American Concrete Institute will host its Semi-Annual Awards Banquet. During this celebration, we will present awards for “Significant Concrete Structures” in Northeast Florida.

If you have any nominations for the award committee, we request that you please fill in the attached form and return it to the Florida First Coast Chapter of the American Concrete Institute. Please include a project photograph with your submission. Nominations must be received by October 1, 2025, to be considered.
